# Tax Information

## **What is ad valorem?**

As obtained from the Georgia Department of Revenue, *Ad Valorem Tax*, more commonly known as property tax, is a legal source of revenue for local governments in Georgia. The basis for ad valorem taxation is either the current use value or in most cases the fair market value, which is established as of January 1 of each year. The tax is levied on the assessed value of the property which, by law, is established at 40 percent (40%) of the value.

The amount of tax is determined by the tax rate (mill rate) levied by various entities.

One mill is equal to \$1.00 for each \$1,000 of assessed value, or .001.

There are many entities involved in ad valorem taxation:

- County Tax Commissioner
- County Board of Assessors
- County Board of Equalization
- Board of County Commissioners or County Governing Authority
- County Board of Education
- State Revenue Commissioner

## **What is a millage rate?**

A millage rate is a tax rate that when multiplied against the assessed value of taxable property, it calculates the amount of property tax to be paid. It is a “numerical multiplier.” The Millage Rate is established by the levying authority each year, which in Statham’s case is the City Council.

## **When are tax returns filed?**

Taxpayers are required to file at least an initial tax return for taxable property (both real and personal property) owned on January 1 of the tax year. In all Georgia Counties, the time for filing returns is January 1 through April 1. Returns are filed either with the Tax Commissioner or Tax Assessor. The tax return is a descriptive listing of the property owned by the taxpayer, which includes the taxpayer’s declaration of the value of the property. Once the initial tax return is filed, the law provides for an automatic renewal of that return each succeeding year at the value determined for the preceding year. The taxpayer is required to file a new return only as additional property is acquired or improvements are made to the existing property, or other changes that have occur. A new return may also be made by the taxpayer to declare a different value from the existing value where the taxpayer is dissatisfied with the current value placed on the property by the Board of Tax Assessors.

## **What is a Homestead Exemption?**

Various homestead exemptions have been enacted to reduce the burden of ad valorem taxation for Georgia homeowners. The exemptions apply to property owned by the taxpayer and claimed as his or her legal residence.

Applications for Homestead Exemption may be filed by an applicant with the County Tax Commissioner at any time during the calendar year subsequent to the property becoming the primary residence of the applicant up to and including April 1 for which the exemption is sought. Applications received after this date may be applied to the next year's tax bill. Once granted, the homestead exemption is automatically renewed each year, and the taxpayer does not need to apply again unless there is a change in ownership or the taxpayer seeks to qualify for a different exemption.

Types of exemptions:

- Standard
- Standard Elderly School Tax
- Standard Elderly General
- Senior Citizens
- Disabled Veterans
- Surviving Spouse of Member of Armed Forces Killed in Action
- Peace Officer or Firefighter
- Floating or Varying
- Freeport (enaction determined at local level)

For applications and full descriptions of the different types of exemptions, taxpayers may contact the County Tax Assessor's office to see if they qualify.

### **Questions or comments about exemptions?**

Barrow County Tax Assessor  
30 N. Broad Street  
Winder, Georgia 30680

# Importance of Property Taxes

Ad valorem taxes are often criticized. Whereas the tax can be the object of this criticism, the tax itself is often a result from the property assessment process. The amount of ad valorem taxes that taxpayers pay is based on value, therefore, based upon a person's wealth, and wealth is determined by the property a person owns. All real and personal property are taxable unless it has been exempted by law.

## **Real property**

Real property is land and generally anything that is erected, growing or affixed to the land. Examples include your house, garage, enclosed patios and any storage spaces (i.e., barns, storage buildings, pole barns, timber, mobile homes, etc.).

The value of property owned by railroads and utility companies (Georgia Power, Jackson EMC, AT&T, natural gas companies and cable companies) is set by the Georgia Department of Revenue.

## **Personal property**

Personal property is everything that can be owned that is not real estate. Examples include machinery and equipment, fixtures, boats, campers, RVs and airplanes.

## **How is property assessed?**

Property is assessed at the county level by the Board of Tax Assessors. The State Revenue Commissioner is responsible for examining the county digest to determine if property is assessed uniformly and equally between and within counties.

All property and subjects of taxation returned at a value which would be realized from the cash sale, but not the forced sale. All tax bills received include the fair market value (FMV) and the assessed value of the property. The term "FMV" means the amount a knowledgeable buyer would pay for the property and a willing seller would accept.

## **Why are ad valorem taxes so important to a local government?**

Ad valorem taxes are a very important component of municipal revenue systems. Its attributes include the following:

- Provides a predictable source of revenue;
- There are direct benefits to those who pay it;
- The tax rate can be adjusted to generate the amount of revenue necessary to provide municipal services;

- According to the DCA Fiscal Planning Guide, property taxes accumulate for an average of 44 percent (44%) of General Fund Revenue for Georgia Counties and 27 percent (27%) of General Fund Revenue for Georgia Cities;
- Unlike other forms of taxation, property tax rate is established annually, and citizen input can affect the tax rate by giving citizens a voice in how much tax revenue is generated;
- Tax on real property is difficult to avoid, thus making collection and enforcement easier and less expensive; and
- Property tax has enabled local governments to achieve their own form of autonomy from state and federal control, thereby preventing centralization of power or “total control” at higher levels of government.

### **How can I figure out how much I will pay in taxes this year?**

Taxpayers can figure how much they owe in property taxes by taking the fair market value (FMV) of their property and multiplying it by 40% or 0.40 to get the assessed value (AV). Multiply the AV by the millage rate.

Example:

FMV of property: \$150,000

AV of property: \$60,000 or 40%

Millage Rate 0.006 or 6 mills

Annual Property Tax Levy: \$360

# What are Statham Property Taxes Used For?

Property taxes collected inside the City Limits of Statham are collected for a number of different reasons to be utilized in a number of different ways, for each City department, and for other civic organizations located in the City.

1. To support the administration of the City government.
2. To provide financial support to the Piedmont Regional Library System for their Statham branch.
3. To pay the salaries for City employees including police officers, public works staff, the mayor and council, city hall staff, finance department, and water/sewer staff.
4. To pay contracted services including code enforcement, building inspections and permits, and planning and zoning.
5. To pay municipal court expenses including fees to the state, and to Barrow County for usage of county jail.
6. To pay for professional fees including the city attorney and engineer.
7. To pay City debt and interest on bonds, loans and leases.
8. To pay for equipment upgrades utilized by public safety and the police department including protective equipment (vests, firearms, tasers, body cams), and safety equipment such as shoring equipment, reflective vests, hardhats, harnesses).
9. For the repair, maintenance and construction of city-owned streets, sidewalks, curbs and storm drainage systems.
10. To provide workers compensation, health benefits and retirement benefits for police officers and City staff.
11. To provide public health and sanitation.
12. To acquire, improve and maintain public buildings.
13. To provide for the upgrades, maintenance and improvements of public parks and recreation.
14. To pay for training, recertification and education for City staff, mayor and council.
15. For technical services utilized throughout City departments such as city code codification, finance software, utility billing software, public safety and municipal court software, and other similar services.
16. For the costs associated with advertising and public relations.
17. For the purchase of City vehicles for police and public works departments.
18. To pay the costs associated with the police department K9 unit.
19. To pay for City property and liability insurance, and to pay for the costs of City Officials E&O (Errors and Omissions) insurance.

20. To pay for capital expenditures and projects such as upgraded water meters, new service lines, culvert repairs and infrastructure and public building renovations.
21. To pay utilities for the enhancement and safety of our citizens including streetlights and use of public buildings.
22. To pay vendors for specialized services including electrical work for the City spring and lift stations, HVAC, road repair and sidewalk construction, major water/sewer projects, the City judge, solicitor, interpreter and indigent defense attorney, and many others.
23. To provide for grants and other funding sources that require a City match.
24. To provide funds for emergency situations such as emergency repairs to a road; for fallen trees and debris, or if there is a water or sewer line break or emergency repair anywhere within our water system.

# City of Statham Rollback Rate

## **What does the term rollback mean?**

Rollback means the rate which, minus new construction or annexation, would generate the same amount of revenues as the previous year's property tax rate.

The City's rollback of millage rate is configured using data from the consolidated tax digest and entered into form PT-32.1. This form, as well as form PT-38, is required to be completed annually and provided to the Barrow County Tax Assessor after the tax rate for the new year has been approved (forms included in Appendix).

The annual Consolidation and Evaluation Digest data includes assessed values of both personal and real property in the following classifications:

- Agricultural
- Commercial
- Industrial
- Residential
- Utility
- Conservation Use

The Digest also includes exemptions of assessed values which are reduced from the City's total gross M&O (maintenance and operations) digest. Other factors such as changes to the taxable digest from the year prior and reassessments are both part of the formulas for figuring out what the rollback rate should be.

## **Rollback of millage rate to offset increases**

Each year there are two types of value increases made to a tax digest. They are:

- increases due to inflation, and
- increases due to new or improved properties.

When the total digest of taxable property is prepared, Georgia Law requires that a rollback millage rate must be computed that will produce the same total revenue on the current year's new digest that last year's millage rate would have produced had no reassessments occurred.

If the City elects to set their millage rate higher than the rollback rate, they are required to do the following:

- to hold three public hearings;
- place notices of the increase in the legal organ; and
- issue press releases.

There are no additional requirements if the levying authority rolls back the millage rate each year to offset any inflationary increases in the digest.

### **Statham five-year millage rate history**

# The Different Points of View

There are three different “points of view” when it comes to taxes and millage rates:

1. The *Macro* View: looks at the total digest and taxpayers as a single group.
2. The *Micro* View: looks at the individual property taxpayer.
3. The *Budget* View: looks at the impact of property taxes in the financial plan for the upcoming year.

## **Macro view**

Macro view is what the levying authority focuses their attention on, and in Statham’s case, is the Mayor and City Council.

City Council members collectively look at the total digest and taxpayers as a whole. Taxpayers are what “makes up” the total digest each year via their personal property, property enhancements, property additions, land, equipment, machinery, and so on.

Levy authorities (Statham City Council) need to play close attention to the Budget View as well because what they elect to set as the millage rate absolutely affects the overall budget of the City. On the same token, they need to take into consideration the affects the millage rate and its burden will place on the citizens of the City.

## **Micro view**

Micro view is how the burden of paying taxes directly affects the individual taxpayer. Taxes, in general, can oftentimes be difficult to comprehend, and having clarity of all the whys, whens and wheres of their hard-earned income and tax dollars go is very important to them as a resident of Statham’s community, and rightfully so!

“What does ‘*insert object here*’ mean?” and “where do my tax dollars go?” or “why is the tax rate being increased/decreased this year?” are all questions the City should be prepared to answer.

## **Budget view**

Budget view is how the City’s finance department looks at taxes and setting the millage rate. The City’s finance department works directly with the Tax Assessor’s Office to not only obtain the annual tax digest, but is who they submit Forms PT-32.1 and PT-38 to once the millage rate is approved by City Council.

Each year, the City’s finance department sets the upcoming fiscal year’s budget based on the City’s anticipated revenues as well as budget requests from each City department, requests from the Mayor and City Council, and requests from the City’s constituents.

An annual budget is framed around each of these requests, and after all budget workshops and public hearings are completed, a balanced budget is adopted. The City’s budgeting process is definitely revenue-driven because the City cannot budget expenses that will exceed the available revenue; however, at the same time, certain governmental expenses cannot be avoided, and revenues must be adjusted to make it possible to fund services demanded by citizens and businesses.

# Proposed Millage Rate

According to the DCA Fiscal Planning Guide, property taxes accumulate for an average of 44 percent (44%) of General Fund Revenue for Georgia Counties and 27 percent (27%) of General Fund Revenue for Georgia Cities.

Property taxes for the tax year 2022 accumulate for 11.6 percent (11.6%) of the General Fund Revenue, down from 16.48 percent (16.48%) in tax year 2021 and below the state average. This is calculated by using the formula below:

$$P\% = Y/X$$

$$Y=\$310,000 \text{ (amount of property taxes budgeted to collect for tax year 2022)}$$
$$X=\$2,353,190 \text{ (FY23 budgeted general fund revenue)}$$

$$P\% = 0.11640 \text{ (convert decimal to percent by multiplying by 100)}$$

$$P\% = 11.64$$

## **City of Statham General Fund Revenue FY23 Budget - \$2,663,190**

|               |                                  |               |

## Calculating the proposed millage rate

The levying authority also establishes the City's annual budget, which is calculated by estimating the total revenue the City expects to receive in any given fiscal year, and offsets that received revenue by departmental expenditures to establish a balanced budget.

For Budget FY23 (July 1, 2022 through June 30, 2023), the property tax revenue the City expects to receive for tax year 2022 is \$310,000 and is shown in line item 100-031-11000 on page 11. This revenue, just as all sources of revenue, is expended throughout the entire budget.

For the 2022 tax year's configurations, the rollback rate from tax year 2021 is 3.338. However, based on the council-approved amount the City needs to maintain a balanced budget, an increase of 0.665 is required that establishes the proposed 4.003 millage rate.

The percentage of tax increase from the calculated 3.338 millage on Form PT-32.1 to the proposed 4.003 millage to meet the budget requirements is 19.92 percent (19.92%).

### Summary

Tax Year 2020 Millage Rate – 4.003

Tax Year 2021 Millage Rate – 4.003

Tax Year 2022 Proposed Millage Rate – 4.003

Tax Year 2022 Proposed Rollback Rate – 3.338

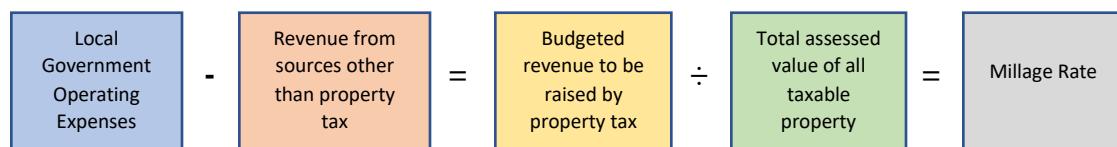

Percentage Tax Increase (from 2022 Rollback Rate to 2022 Millage Rate) – 19.92%

### Why is the City proposing a tax increase?

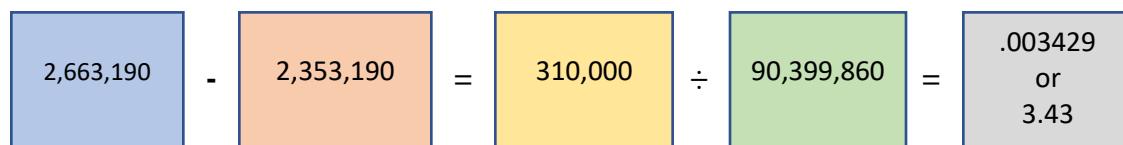

The millage rate is established after the fiscal year's budget has already been vetted, processed and approved, and is established based on the property tax the City Council has budgeted to receive. Form PT-32.1 helps determine what the millage rate should be, however, many factors go into what the millage rate is including the types and costs of upcoming projects, large purchases and administrative expenses that City Council approved in the budget.

In a nutshell, the FY23 budget has a number of projects and large purchases, therefore, an increase in the millage rate is required to pay for those.

### What is the formula for configuring the millage rate?

City of Statham:

## **Can City Council vote to approve the rollback rate?**

Yes. If they vote to approve the rollback rate of 3.338, then a FY23 budget amendment would be needed, and the Council would be required to reduce funding for certain projects, purchases and other expenses.

## **Final thoughts**

It is never the City's intention to place additional burdens on our citizens. However, there are instances that can arise where burdens, such as a higher tax rate, is necessary.

Instances such as the replacement of a community center roof and the purchase of police vehicles that was budgeted for FY23 requires additional revenue to help offset those expenditures. Projects that are for the benefit of the citizens such as road repairs and maintenance, upgrading our Community buildings, funding the library or setting aside funds for stormwater projects are but a few examples for an increase in tax rate.

An additional factor for deciding whether to increase, decrease or maintain a tax rate is looking back through history of the City's tax rates. Ideally, a municipality should not collect any more or any less than the previous year's tax collection unless specific reasons are given for an increase. However, during difficult times, such as during the Great Recession, taxes may have actually increased because property values decline significantly, therefore, the revenue to be collected had been impacted by the drops in values and the City's total revenue had declined affecting the overall budget. During difficult times, projects that had originally been budgeted may have gone unfinished or had not even begun because the revenue just wasn't there to be able to do these things. Fast-forwarding a decade, property values increase and inflation soars; the tax collected is higher but now the City has to play "catch up" from projects and purchases that were not able to be completed from years before.

At this point in time, the City is indeed playing catch up. Infrastructure projects that had been placed on hold, and purchases that needed to be made for the protection and safety of City staff are now starting to be added back to the budget for completion.

Looking ahead to the next five (5) fiscal years, City staff anticipates the millage rate to remain the same or possibly even see a slight increase as the economy declines and inflation costs continue to soar. This forecasting will be based on the projected tax revenue collected at the budget process and what the next set of projects the City can achieve completion on.
